RECEIVED
DEC 20 2002
Technology Center 2600

Dear Sir:

In response to the Office Action dated September 23, 2002, please amend the above-identified patent application as follows:

IN THE CLAIMS:

Please add the following new claims 19-24. All pending claims are presented in the Appendix below. The appendix pages may be treated as substitute pages for the pages of claims in the present specification.

19. (New) A cable modem capable of reducing noise leakage on the upstream channel in a cable plant comprising:

an upstream transmitter having a control line on which the upstream transmitter can emit a control signal;

a switch component capable of being enabled and disabled by the control signal on the control line, such that the control signal from the upstream transmitter to the switch component
